

Children need to be mindful about the natural materials, like mud, as well as know about it at a young age. It will help them embark on a journey of life being sensitive to environment and respecting different elements of nature. This course intends to provide kids an opportunity to sense mud by exploring it in their own ways, like playing with it or making toys out of it.

Kids Workshop:

Children need to be mindful about the natural materials, like mud, as well as know about it at a young age. It will help them embark on a journey of life being sensitive to environment and respecting different elements of nature. This course intends to provide kids an opportunity to sense mud by exploring it in their own ways, like playing with it or making toys out of it.

It will be a complete hands-on course where children will be totally engaged in **experiencing, learning, exploring** the earth and other natural materials. It will be a **one-day** workshop that will be happening at Thannal campus, at the foot hill of Arunachala, Tiruvannamalai.

The course is only open to Educational institutes or Organizations and for the kids studying in school (**kindergarten – 10th grade**)
