

INTRODUCTION TO NATURAL BUILDING

WEEKEND WORKSHOP

mostly second
Saturday and Sunday
of every month
in
Tiruvannamalai, Tamil Nadu

thannal

thannalroots@gmail.com

Anyone can build a natural building with right knowledge about using Natural materials. This two-day initiative aims at introducing participants to the basics of Natural building. People from different walks of life can come together and learn through hands-on work and observing existing projects in our campus.

Natural Building Introduction Workshop

One doesn't have to be an Architect or an Engineer to be a Natural builder. Anyone can build a natural building with right knowledge about using Natural materials. This two-day initiative aims at introducing participants to the basics of Natural building. People from different walks of life can come together; and learn by doing hands-on work and observing existing projects in our campus. It can serve as a platform to share experiences with like-minded people and arrive at a living in harmony with nature.

The workshop will be a **two-day hand on course** focusing on Natural building: techniques and materials. It will be held mostly on **second weekend** of every month at the foot hill of Arunachala, Tiruvannamalai, Tamil Nadu. It is open for all regardless of their age and profession.
