

# THANNAL NATURAL BUILDING WORKSHOP

TIRUVANNAMALAI, TAMIL NADU

Thannal believes that Natural Building is for everyone with an *interest* to learn, regardless of the economic strata they belong to. Our work is always focused to the values, for those students who do not have enough resources to afford, thus we have *Gratuitous Workshop* for the ones who are in *need*.

2 DAYS  
SHORT COURSE

## **Gratuitous workshop**

**Thannal Hand Sculpted Homes** is a Natural Building Awareness Group which believes in creating *more natural builders* than doing more natural buildings by ourselves. We undertake only two projects a year which have peculiar values and we don't take any charges for the same. Workshops are our only source of earning, which is invested on our on-site experimentation and research work. We believe that Natural Building is for *everyone with an interest* to learn, regardless of the economic strata they belong to. Our work is always focused to the values involved than the money generated. So for those students who do not have enough resources to afford, thus we have **Gratuitous Workshop** for the ones who are in **need**.

It will be a **two-day** hands-on course focusing on Natural building: techniques and materials. It will be held on Thannal site at the foot hill of Arunachala, Tiruvannamalai, Tamil Nadu. It is open only for students (any field). The participants or institutions attending this workshop can make contributions in terms of books or tools. The workshop dates will be updated soon on [Thannal.com/upcoming-natural-building-workshop](http://Thannal.com/upcoming-natural-building-workshop).

## **COURSE DETAIL**
